

The methodology used for the Confindustria Dispositivi Medici transparency statement

Linari Medical's operating procedures for publishing Transfers of Value

Linari Medical srl, as a member company of Confindustria Dispositivi Medici, is required to publish the **Transfers of Value** (ToV) made to Healthcare Professionals (HCPs), Healthcare Organizations (HCOs), and other Third Parties (TPIs) to comply with the transparency obligations set forth in the relevant Code of Ethics.

If the HCP does not consent to the processing of personal data, Linari Medical will, in any case, publish the data on an aggregate basis.

- Monetary amounts are reported **net of VAT** except for interactions related to transactions where VAT is not shown or not applicable.
- Amounts reported are in **local currency (Euro)**.
- Amounts originally disbursed in non-local currency are **converted to local currency**.
- All ToV related to a calendar year and known at the date of submission are included in the disclosure statement.
- In the case of ToV related to **multi-year contracts**, each of these separate payments will be included in the disclosure report for the calendar year in which we made the actual payment in our financial systems.
- The addresses shown are those given by the holders at the time of recording the transactions.

Disclaimer

We rely on a combination of automated systems, standardized processes, and manual data entry from internal and external resources to record relevant data and finally create the disclosure statement.

The information in the disclosure statements reflects our good faith and best efforts to comply with the requirements of the Code of Ethics of Confindustria Medical Devices.

If the information is found to be incomplete or incorrect, we will investigate appropriately and promptly rectify any incorrect information.
